Brussels, 6 April 2020

Dear Colleagues,

### **EU Greenlight to Albania and North Macedonia**

Amidst the swamp of replicating virus-news cycles, it is a great pleasure to see that the EU has given the green light to Albania and North Macedonia to enter the final accession process. Better still, that process is being reformed so that those who qualify can fast-track (and those who regress, back-track).

I wish to express the warmest congratulations to our friends and colleagues Adi Shamku, President of the Albanian Society of Property Appraisers, Nadica Mladenovska-Krckoska, President of the Association of Independent Valuers (North Macedonia), Ljupco Sumantov, President of the Chamber of Valuers of the Republic of North Macedonia and Valdet Xhaferi, General Manager of the Bureau of Court Expertise (North Macedonia) and all their members. The TEGoVA leadership looks forward to accompanying you on this final leg of your journey.

TEGoVA is not 'just' the EU, extending as it does throughout Europe and beyond (as indeed does the reach of the EU), but the Union is the common home or the final objective of the vast majority of the countries of our members, and TEGoVA's magnificent development has come from its conscious and organised symbiosis with the EU's community of destiny. In a turbulent world, Europe is how we build our safety, security, health and prosperity together.

With kind regards,

**Krzysztof Grzesik REV FRICS**  
Chairman of the Board of Directors
